Part B for 1926-27

SUBJECT

Industrial survey of the State

D 3071 dt 21.9.27

To

Director, ITC

States that Government approval of the proposals re ———

in their district headquarters and yet Government were pleased to sanction separate Government High Schools in these places recently. He appealed to the Dewan to comply with the request of the people of Maddagiri for a High School which was being pressed on the attention of Government since the days of Sir M. Visvesvaraya.

MR. D. S. MALLAPPA said that the Tumkur District was thickly populated and the demand for High School education in the district was evidenced by the large number of admissions into the newly opened High School at Tiptur. He requested that provision for opening a High School at Maddagiri might be made in the next Budget.

In supporting the above view, MR. PARAMASIVIAH observed that Maddagiri and Pavagada were very unfortunate in every respect, and that special consideration had to be shown to them. He could not believe that a recurring expenditure of Rs. 20,000 would work as a heavy drain on the resources of Government.

He remarked that it was paradoxical that when cities got all conveniences without asking for them, interior places like Maddagiri should go unheeded even though they were clamouring for years past.

MR. MIR MAHOMED SAB complained that Government were partial to the maidan districts in affording educational facilities, in preference to the malnad districts. He said that he had sent up a representation for the opening of a High School at Tarikere, which would help the boys of Koppa, Narasimharajapura and other places but his representation was rejected on the ground that it was a local subject. He prayed that Tarikere might also be included in the next list.

THE DEWAN replied that Government had drawn up a programme in 1923 for the opening of new High Schools in the State, which had been nearly completed. There was provision in that programme only for one new High School for the Tumkur District, and it was established at Tiptur. Another programme would be prepared for the next three years when the claims of all these places would be considered in the light of the representations made in the Assembly.

No. 108.—Opening of Industrial Schools and Colleges.

Messrs. M. Ramaswamy, Venkatakrishniah, B. K. Ramakrishnaiya, City Municipal Council, Mysore. Lokahitaishi H. Nanjundaraj Urs, Ursu Representative. M. Lakshmipathia, Jain Representative. Sricantachar, Visvakarma Representative.

Technological Colleges may be established in Mysore and Bangalore Cities and Industrial Schools in district

1) The files do not contain any note or report of Sir Alfred Chatterton laying down the main lines of Ind Survey except a table of contents of a proposed Volume on Industrial Mysore. There is however a letter no 899 d. 13-3-1913 criticising Mr. Saubasiva Iyer report.

It is probable that these were the papers required by the Secretary.

K.P. 16/11/26 (S.W.T.D.) W.P. 17/11/26.

2. The memo submitted by Mr. Director does not give much information regarding the lines of work proposed to be adopted.

3. In order to avoid delay I beg to submit that Mr Anantha Subramanyam may be placed on Special Duty for the preparation of the Industrial survey report. The duty allowance that he is now drawing may perhaps be continued while he is engaged on this special duty work.

It is desirable to relieve Mr. Anantha Subramanyam of all work connected with the Dept: of the Board while he is engaged on his special work.

4. After Mr Anantha Subramanyam is relieved of his routine work he maybe required to submit

WP 19/11/26

15 Before undertaking any survey, it is necessary that its exact object and scope should be defined. There is no allusion in the Director's proposals to the object or scope of the proposed survey. An all-embracing survey of the kind conducted by Mr. Sambasiva Iyer cannot be expected to be accurate in regard to the material furnished by it or definite in respect of recommendations for improvements and developments made in it. Sir Alfred Chatterton's comments on Mr. Sambasiva Iyer's report show that any survey now undertaken should not be on the lines of the previous survey.

16 I do not think that the division of the survey into the three main sections suggested by the Director is calculated to give us the best results. "Large Industries" is too indefinite a category for any specific or useful enquiry. "Trade and Commerce" have to be considered in relation to particular Industries and products and not independently of them.

17 To make the enquiry as useful as it can be made, it is desirable to limit the survey to the study of a few subjects and get separate reports on them dealing with all the points relating to

NOTE—Contn. Sheet

WD 01229—GPB—37,500—1-9-26

Serial No.

to them. What is wanted is a detailed study of a few subjects and not a general survey of all subjects. The work to be now undertaken may be brought under two heads: (1) Study of particular Industries which from their importance or urgency require early attention; and (2) Enquiry for ascertaining what are all the Rural, Minor and Cottage Industries now pursued by the people in the various parts of the State.

18 The Enquiry referred to above can only be general in the first instance and from the material collected in the course of the general survey, particular Rural, Minor and Cottage Industries will have to be taken up for detailed investigation and study. The ~~particular~~ heads under which information in respect of these Industries should be collected in the course of the general survey have first to be laid down. The Agency for collection of this material may be that of the District Economic Superintendents. and the Supply of Inspectors -

19 The following are, I think, the more importan of the Industries, the improvement of which calls for early attention:-

1. Textiles - Cotton and Wool
2. Sericulture
3. Vegetable Oils
4. Rice milling and Jaggery manufacture
5. Hides and skins
6. Wood-work
7. Tiles including country pottery and country tiles.
8. Metal work.

20 Each of the above subjects should be taken up for special study. The points to be investigat

NOTE—Contn. Sheet

Serial No.

investigated in respect of each subject should also be made definite.

2\ If work on the above lines is undertaken, we might expect some tangible result in the way of collection of reliable material and of proposals indicating the directions in which improvements and developments might be possible and attempted.

2✓ The general lines on which it is proposed to undertake this work should, I think, be ~~placed before, or~~ reported to, the Industries & Commerce Board.

3 Definite proposals on the above lines may be called for from the Director and he may be authorised to place Mr. Ananthasubrahmanyam on Special duty for attending to this work. The period of deputation may be six months and the programme of work should be so drawn up and carried out as to complete the whole work within this period.

OFFICE OF THE DIRECTOR,

Dated Bangalore, the 23rd Octr. 1926 25

FROM

Md. Zahiruddin Mecca, Esq, B.A.,
Offg. *Director of Industries and Commerce in Mysore,*
Bangalore (India).

(Camp) Mysore.

D 2357

GEN. & REV. SECTT. RTD 25. OCT. 1926 G. D. SECTION.

SIR,

To The Secretary to the Government of Mysore,
Development Departments,
Camp Mysore.

With reference to correspondence ending with your letter No. I.C. 1615/ I & C 92-26-1 dated 7th September 1926, I have the honour to enclose herein a brief memo explaining how the grant of Rs. 7,500/- alloted for Industrial Survey is proposed to be utilised.

I have the honour to be,
Sir,
Your most obedient servant,

Offg. Director.

25/10/26

NOTE—Contn. sheet.

WD 0321—GPB—60,000—21-5-27

M E M O.

The Industrial Survey of the Mysore State was conducted in the year X by Mr. V. S. Sambasiva Iyer. The actual survey took nearly two years for Mr. V. S. Sambasiva Iyer to complete. In view of the fact however that the Department has been in existence for over 12 years and much useful information has been collected, it may take about 6 months to re-do this survey. It is very necessary to place an Officer entirely on this specific work. At present amongst the Departmental Officers, the only Officer who has considerable experience and knowledge of conditions first hand in the Mysore State is Mr. R. Ananthasubramanyam, and I propose placing him on this work. So far as it goes with the Survey proper, the main lines of survey to be conducted have been suggested by Sir Alfred Chatterton. I propose dividing the survey into 3 main sections (1) dealing with the large industries, power resources etc. (2) Rural, Minor and Cottage Industries and (3) Trade and Commerce. As regards trade and Commerce, Mr. H. K. Rama Iyengar will do the preliminary work and the lines on which the information has to be published will be more or less like the one by Mr. Couchmen, in the Madras Presidency. The whole work will be supervised and got done by Mr. R. Ananthasubramanyam.

As regards the Rural, Minor and Cottage Industries, it is desirable to have a regular survey of it made in each District, and I intend utilising the services of the District Economic Superintendents recently appointed for this purpose. The above will give the lines on which the work will be started. The grant of Rs. 7,500 will be utilised for the entertainment of the necessary staff to assist the two Officers in carrying out ~~this~~ their work. On the previous occasion when Mr. V. S. Sambasiva Iyer conducted the survey, he was given an allowance of Rs. 100/- for the period he was on this work. This being a special work I would suggest that an allowance of Rs. 50/- being given to Mr. H. K. Rama Iyengar and Rs. 100/- to Mr. R. Ananthasubramanyam for a period of 6 months in the first instance. The rest of the amount will be utilised in getting the forms printed

printed and also for the purpose of purchasing a complete set of necessary books relating to Industrial Progress in and outside India.

Offg. Director.

Bangalore.

Sir,

/Stc 92-26-5

With reference to the correspondence ending with your letter No.G.477/C dated 12/15th Novr. 1926 on the subject of conducting an Industrial Survey of the State, I am directed to observe as follows:-

2. It is necessary to define the object or scope of the proposed survey. A general survey cannot be expected to be accurate in regard to the material furnished by it or definite in respect of recommendations for improvements and developments made in it.

3. The work to be undertaken may be brought under two heads; (1) Study of particular Industries which, from their importance or urgency require early attention; and (2) Enquiry for ascertaining what are all the Rural, Minor and Cottage industries now pursued by the people in the various parts of the State.

4. The Enquiry referred to above can only be general in the first instance and from the material collected in the course of the general survey, particular Rural, Minor and Cottage Industries will have to be taken up for detailed investigation and study. The heads under which information in respect of these industries should be collected in the course of the general survey, have first to be laid down. The Agency for collection of this material may be that of the District Economic Superintendents and the Superintendents of Industries.

5. In regard to the study of particular industries, the industries noted in the margin

1. Textiles- Cotton and Wool.
2. Sericulture.
3. Vegetable oils.
4. Rice Milling and Jaggery manufacture.
5. Hides and skins.
6. Wood work.
7. Tiles including country pottery and country tiles.
8. Metal work

may be taken up for investigation and the -- points for enquiry definetely laid down.

6. If work on the above lines is undertaken it is expected that reliable information will be collected and it will be possible to submit proposals indicating the directions in which improvements and developments may be attempted

7. I am accordingly to request you to be good enough to submit at an early date, revised proposals on the above lines. Mr. R. Anantasubrahmanyam, Industrial Assistant, may be entrusted with the work, the programme of work being so drawn up as to admit of its being completed within about four months. ~~Separate notification will issue in the matter~~.

I & C 92-26-6.

SIR,

With reference to your letter No. D. 3930 I & C 92-26-5 of the 4th Decr. 1926 conveying the observations of Government in regard to conducting an Industrial Survey of the State, I have the honor to submit that investigations may at first be confined to the Industries selected by Government in para 5 of their letter. I enclose separate-ly a statement showing the points to which investigation may be confined in regard to each of these Industries. This investigation is likely to focus attention on the present situation of the Industry and the difficulties it has to overcome and may be expected to indicate the lines of future advance.

In regard to the Minor, Rural and Cottage industries a statement showing (1) Statistics of Industrial Establishments, (2) Weaving - - Survey, (3) Work of pumping plants and (4) other cottage industries, are enclosed calling for appropriate information. If the general - scheme submitted herewith is approved, the Industrial Assistant will be requested to proceed with his investigation.

I have the honor to be,
Sir,
Your most obedient servant,
C Ranganatha Rao Sahib
Director.

CRS-USC)

Points for inquiry.

1. Distribution of the Industry or occupation.
2. No. of men pursuing the occupation and total number depending on it for livelihood and their present financial condition.
3. Methods of production:-- Nature of appliances used, their merits or defects relative magnitude of the Industry. Possibility of the adoption of improved appliances and probable effect on production.
4. Raw materials for the industry - present organisation for supply of raw materials, its quality, price, sources of possible improvement.
5. Market for products. The nature of extent and situation of market for products, the present sales organisation.
6. Present financial organisation.
7. General conclusions.

INFORMATION REQUIRED FOR THE DEPARTMENT OF INDUSTRIES AND COMMERCE IN MYSORE, BANGALORE.

Return of Industrial Establishments in Taluk for 192 .

No.	Place.	Name of Establishment.	Date of Commencement of business.	Description of Industry.	Average Number of persons employed daily.	Approximate total capital invested. Rs.	Approximate gross annual outturn. Rs.	Whether worked by mechanical power or not.
1	2	3	4	5	6	7	8	9

(1) Industrial Establishments which do not employ on an average 10 persons daily need not be included in the return.

(2) The average daily number of persons employed is to be calculated by dividing the total number of attendances (of both permanent and temporary employees) throughout the year by the number of working days during the year.

(3) In the case of concerns worked by mechanical power the motive power employed together with the H. P. used may be entered in Col. 9.
